The Road to Reconciliation: A Comprehensive Guide to Peace When Relationships Go Bad, describes a path towards healing and potential forgiveness for anyone in a relationship affected by selfishness, violence, abuse, addiction, or betrayal. It guides the reader on how to assess the damage done and recognize codependency and vindictiveness in themselves, blocking the way from injury to peace. It gives pragmatic advice on how to find safety, assert needs, apologize, make amends, and promote change.

Explores the human costs and consequences of war in Bosnia, with photographs that illuminate the promises and contradictions of this post-war society. Marked by ethnic cleansing and the worst genocide since World War II, Bosnia has been quiet since the tanks rolled out and the journalists went home. The country is still deep in the throes of rebuilding a civil society, and this book pays witness to the process: *the exhumation and identification of approximately 20,000 victims of ethnic cleansing *the widows of Srebrenica, who lost
more than 7,000 men to the July 1995 massacre by Serbs *refugee families who return to rebuild homes and villages destroyed in the war *the youth of Sarajevo *and the Bosnians who bear scars of war, including the 3K Sarajevo wheelchair basketball team.

Rethinking War And Peace

This is the comprehensive account of the long and difficult road traveled to end the fifty-year armed conflict with the FARC, the oldest guerrilla army in the world; a long war that left more than eight million victims. The obstacles to peace were both large and dangerous. All previous attempts to negotiate with the FARC had failed, creating an environment where differences were irreconcilable and political will was scarce. The Battle for Peace is the story not only of the six years of negotiation and the peace process that transformed a country, its secret contacts, its international implications, and difficulties and achievements but also of the two previous decades in which Colombia oscillated between warlike confrontation and negotiated solution. In The Battle for Peace Juan Manuel Santos shares the lessons he learned about war and peace and how to build a successful negotiation process in the context of a nation which had all but resigned itself to war and the complexities of twenty-first-century international law and diplomacy. While Santos is clear that there is no handbook for making peace, he offers conflict-tested guidance on the critical parameters, conditions, and principles as well as rich detail on the innovations that made it possible for his nation to find common ground and a just solution.

Guatemala, the Long Road to Peace

The best-selling first edition of The Long Road to Peace in Northern Ireland (0853236771) included essays from Senator George J. Mitchell, Sir David Goodall, Sir George Quigley, Lord Owen and Niall O'Dowd among others, and demonstrated the evolution of peace in Ireland, culminating in the Good Friday Agreement. Now Marianne Elliott, one of the world's leading historians of Ireland, has updated the book and commissioned new essays to ensure that this vital resource for students, scholars, politicians and the interested general reader continues to illuminate the peace process through the words of some of its pivotal figures. The essays all relate to the nature of peacemaking as a process rather than an event signalled by the signing of an agreement. The significant role of 'third party' diplomacy is touched on by many contributors, as is the need for pragmatism, compromise, and a recognition that it is those people at the polar extremes of any dispute that have to be drawn in if a lasting agreement is to be achieved.

A Tortuous Road to Peace

A well-known American academic and cofounder of Boston's first settlement house, Emily Greene Balch was an important Progressive...
Era reformer and advocate for world peace. Balch served as a professor of economics and sociology at Wellesley College for twenty years until her opposition to World War I resulted in the board of trustees refusing to renew her contract. Afterwards, Balch continued to emphasize the importance of international institutions for preventing and reconciling conflicts. She was awarded a Nobel Peace Prize in 1946 for her efforts in cofounding and leading the Women’s International League for Peace and Freedom (WILPF). In tracing Balch's work at Wellesley, for the WILPF, and for other peace movements, Kristen E. Gwinn draws on a rich collection of primary sources such as letters, lectures, a draft of Balch's autobiography, and proceedings of the WILPF and other organizations in which Balch held leadership roles. Gwinn illuminates Balch's ideas on negotiated peace, internationalism, global citizenship, and diversity while providing pointed insight into her multifaceted career, philosophy, and temperament. Detailing Balch's academic research on Slavic immigration and her arguments for greater cultural and monetary cohesion in Europe, Gwinn shows how Balch's scholarship and teaching reflected her philosophical development. This first scholarly biography of Balch helps contextualize her activism while taking into consideration changes in American attitudes toward war and female intellectuals in the early twentieth century.

The Long Road to Peace in Northern Ireland

The Fight for Peace

The ratification of the Good Friday Agreement in 1998 was the culmination of a lengthy and contentious peace process that involved the efforts of a committed team of political actors. In 2001, Marianne Elliott brought together a collection of essays by many of these pivotal figures in The Long Road to Peace in Northern Ireland, an invaluable resource for students, scholars, and politicians. Now Elliott, one of the most prominent chroniclers of Irish history, presents a fully updated edition with new essays commissioned to explore the events of the past five years. A period that saw successes such as the decommissioning of the Provisional IRA but also a rise in drug
trafficking and organized crime, as a generation of men who have done nothing other than serve as paramilitaries are now finding their
skills most valued as criminals. With contributions from U.S. Senator George J. Mitchell, Sir David Goodall, Jan Egeland, Lord Owen, and
Peter Mandelsohn, the second edition of The Long Road to Peace in Northern Ireland is an illuminating record of the ongoing peace
process—and its consequences—told by the people directly involved in its evolution.

The Long Road to Peace

When the Israeli prime minister and the PLO chairman shook hands on the White House lawn in 1993, Israeli peace activists had good
reason to celebrate this major step on the long road to peace. This book tells the story of the Israeli peace movement and the role it
played in that pursuit of peace. It is an eloquent, fascinating account of a remarkably diverse and determined cast of activists: from
war-weary soldiers to hard-headed politicians, careful scholars to impassioned artists. Drawing on his experience in the peace
movement, Bar-On provides intimate portraits of groups like Peace Now, Yesh Gvul, and the Women in Black, he also provides a
sweeping historical synthesis of the course of the Israeli-Arab conflict, especially between 1967 and 1993.

Aftermath

Political dominance of the white minority in South Africa has been abolished since the early nineties. But the road leading to a more
just society with equal chances for all, is still a long one. This book explains the meaning and relevance of existing conflicts and the
different methods of conflict transformation developed in South Africa by many actors of civil society and put in practice by, among others, the National Commission on Truth and Reconciliation, within youth education, and in local communities.

Throughout his life Henri Nouwen stressed the connection between intimacy with Christ and solidarity with a wounded world. From his early support for the civil rights movement, through his engagement in the cause of peace, to his life with the handicapped members of the L'Arche community, Nouwen was always immersed with the social as well as the spiritual dimensions of the gospel. In gathering together Nouwen's many writings on peace and social justice, editor John Dear amplifies this crucial element of Nouwen's message about the call of Christian discipleship. At the same time, Nouwen calls on activists to be peacemakers in the fullest sense: to root their witness in prayer, joy, and a spirit of love. For all those who have read and treasured the life and work of Henri Nouwen, The Road to Peace is an inspiration, and a challenge to live our Christian lives with both love and action. Book jacket.

In Darfur: The Long Road to Disaster, Burr and Collins have updated their original 1999 volume with additional chapters. The new title is not a publisher's gimmick: this is indeed the prehistory of Darfur's tragedy, and it is essential, if difficult, reading for any serious
student of the crisis Not only does it provide an account of a history indispensable for understanding Darfur, but it is a salutary reminder of how intractable conflicts in the Chad basin can be. --African Studies Review Millard Burr and Robert Collins' book documents the twists and turns in this long-running saga. This edition brings the story almost up to date. - Times Higher Education Supplement A lively and informative study The authors consider ethnic, religious, cultural, technological, geographic, and meteorological variables and present brief enlightening political portraits of the stories' protagonists. - Foreign Affairs Review a timely, useful contribution well documented and lucidly written. - International Journal of Middle East Studie
